

## The locations of all cameras in Suffolk are publicised every week

Safety cameras are located at sites with a history of accidents involving fatal or seriously injured casualties. The locations of the cameras are publicised weekly in the local press, on local radio traffic bulletins and on the Suffolk SafeCam website. Both the fixed cameras and the mobile enforcement vehicles are highly visible and the very presence of a safety camera warning sign should alert drivers to the fact that they are travelling on a road with a history of collisions.

*Safety camera warning sign means mobile and fixed enforcement takes place in the area*

**Our objective is not to catch speeding motorists but to warn drivers to SLOW DOWN FOR SAFETY'S SAKE!**

**Remember, speed limits are not a target. You should drive according to conditions and lower speeds are often appropriate.**

### Do you know your speed limits?

	Built up area (street lit)	Single Carriageway	Dual Carriageway	Motorway
	30	60	70	70
	30	50	60	60
	30	50	60	70
	30	50	60	70*
	30	40	50	60
	30	40	50	60

*\*60mph if articulated or towing a trailer  
These are the national speed limits and apply to all roads unless signs show otherwise.*

## Vehicle speed is the single most significant factor in causing serious road accidents – Slow down for safety's sake!

### The Facts

- Only a quarter of all travel by car drivers happens between 7pm and 8am, but during this time 40% of fatal and serious injuries are sustained on the roads.
- Over half of car drivers and passengers who die in collisions are killed on 60mph single carriageway roads. In 32% of these accidents, no other vehicle is involved.
- Suffolk SafeCam's activities are in addition to speed enforcement carried out by Suffolk Constabulary, not instead of.
- Preventing just one injury accident actually saves the local community around £100,000.

### Suffolk Safety Camera Partnership

Suffolk SafeCam is managed by the Suffolk Safety Camera Partnership, a group of organisations with one common objective: to reduce the number of accidents on Suffolk's roads. The partnership comprises: Suffolk County Council, Suffolk Constabulary, Ipswich NHS Hospital, HMCS, Crown Prosecution Service, The Highways Agency

### We aim to achieve safer roads for Suffolk through:

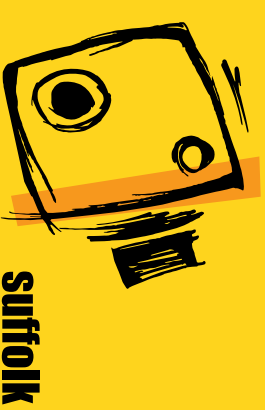

- Educating and changing driver's attitudes towards inappropriate or excessive speed
- Targeted enforcement at sites with a history of collisions
